KWEICHOW According to Kweiyang radio (in Kweichow dialect 2320 gmt 11 Mar 75), from 4th to 10th March, Kweiyang municipal CCP and revolutionary committees held a symposium on learning from Tachung. The meeting, which was attended by 800 cadres and workers, concentrated on studying Chairman Mao's instruction on theory. Responsible persons of the municipal CCP and revolutionary committees and the CCP committee of Kweiyang Garrison attended the meeting. Responsible persons of the provincial industry and communications office and construction committee made speeches (Chin Feng), first secretary of the municipal CCP committee, also made a speech. "The meeting demanded that all units act in accordance with the great target of speeding up the development of China's national economy as put forward by Premier Chou in the Government work report delivered at the Fourth NPC. Under the Party committees' unified leadership, it is necessary to fully launch the masses to hold serious discussions and work out long-term plans and annual plans. The various departments must regard support for agriculture as their primary task and work out production plans for farm machinery, chemical fertilizers, agricultural pumps and so on."

SHANTUNG Tsinan radio reported (1100 gmt 11 Mar 75) that the provincial CCP committee had held a meeting on 9th and 10th March at which members of a Tachung reporting team delivered reports on their experiences. The team had come to Shantung at the invitation of the provincial Party and revolutionary committees. Pai Ju-ping, First Secretary of Shantung Provincial CCP Committee and chairman of the provincial revolutionary committee, and Su Yi-jan, deputy secretary of the provincial CCP committee and vice-chairman of the provincial revolutionary committee, had addressed the meeting, which had been attended by responsible comrades of the provincial CCP and revolutionary committees, the Tsinan PLA units, and the provincial military district. Also present were all the comrades attending a provincial conference on learning from Taching and comrades of Shantung provincial and Tsinan municipal organs, factories, mines, enterprises and schools. In all, some 200,000 persons had heard the reports in more than 500 meeting places. The radio said that the Taching reporting team, which had arrived in Tsinan on 7th March, would also visit Tzupo, the Shengli oilfield and other places to report on Taching's valuable experiences.

SHENSI In a report on a study class run by the Party committee of Paochi light-bulb factory on Mao's instruction on theory, Sian radio said (1100 gmt 11 Mar 75) that the study class had reviewed the following case: "In a certain period last year, the Party committee sent a propaganda team to the No 1 workshop to improve the backward appearance there. At that time, some people worked out a method of bonuses, and hoped thereby to mobilize the masses' activism. On discovering this, the Party committee prohibited the practice. Subsequently, the members of the propaganda team and workers of the workshop seriously studied the Party's basic line and grasped firmly the class struggle in the ideological sphere. The appearance of the workshop was quickly improved. However, in the fourth quarter, when time was pressing, the tasks were heavy and pressure was great, some people forgot the previous lesson and decided to pay the workers overtime. After comrades of the No 14 work group of No 5 workshop wrote an article, 'Do we work hard to make greater contributions, or to earn more money?', they were greatly educated and enlightened ideologically."

SINKIANG Urumchi radio reported (1300 gmt 10 Mar 75) that the autonomous region revolutionary committee had recently held a regional conference on the production of grain, cotton, edible oil, sugar, tobacco, hemp and vegetables. Tsao Szu-ming and other leading comrades of the Party, Government and Army in the autonomous region had attended the conference. The comrades attending the conference said: "Some comrades are inclined to pay attention only to matters concerning production, are afraid to grasp class struggle and dare not struggle against capitalism, even to the extent of total indifference. If this continues, not only will it be impossible for agriculture to develop, but it will also be possible for capitalism to be restored in the rural areas. Therefore, we must step up the study of the theory of the dictatorship of the proletariat..."
