part in study with the Party committee's central study group and to discuss production tasks Through various methods, the Party committee has striven to make sure that the factory's leadership is in the hands of genuine Marxists and workers "

Farmland Improvement Conference in Inner Mongolia

Huhehot, Inner Mongolia regional service 1100 gmt 19 July 75

Precis, with quotations, of report:

Inner Mongolia Regional CCP Committee called a regional conference on farmland improvement from 2nd to 16th July Those present studied the important instructions of Chairman Mao and the Party Centre on agricultural development and summed up and exchanged experiences in farmland improvement. They also discussed and worked out a long-term plan for farmland improvement and the tasks for the coming winter and spring in the region

More than 150 persons attended the conference, including the first secretaries and secretaries of various league, municipal, banner and county Party committees and responsible persons of agricultural, forestry, water conservancy and other departments in the region. Yu Tai-chung, First Secretary of the regional Party committee, and Wu Tao, Secretary of the same Party committee, attended and addressed the conference. Liu Ching-ping, Secretary of the regional Party committee, delivered a concluding report

The conference analysed the excellent situation in farmland improvement in the region and summed up the basic experiences in this regard "It was of the opinion that to deepen the movement to learn from Tachai in agriculture and go all out for farmland improvement, we must, like Tachai, first adhere to the Party's basic line, study well the theory of the dictatorship of the proletariat, vigorously grasp class struggle and the struggle between the two lines, and conscientiously solve the question of orientation and road in agricultural development " Only by vigorously grasping the struggle between the two classes, two roads and two lines can we uphold socialism and advance along Chairman Mao's revolutionary line

"Therefore we should clarify in both theory and practice the question of exercising dictatorship of the proletariat and understand the objective law of class struggle in the period of socialism Always keeping the Party's basic line in mind, we should deal hard blows at the class enemies carrying out sabotage activities. We should criticize revisionism, capitalist tendencies, the concept of bourgeois rights, and the bourgeois world outlook We must further implement the policy of stability and unity We must attach importance to the line, unity, Party spirit, the interests of the whole and discipline We must strengthen Party leadership, persevere in continuing the revolution under the dictatorship of the proletariat, and develop the socialist economy "

Leading groups should take the lead in learning from Tachai Members of all leading groups should conscientiously study Marxist Leninist works and Chairman Mao's works, especially the theory of the dictatorship of the proletariat "Vigorous support should be given to those leading groups which are full of revolutionary vigour and which dare to act Mistakes and shortcomings are unavoidable in work We should allow people to make mistakes and correct them As for those leading groups which have lagged behind for a long time, they should be either strengthened or improved through education. Attention should be paid to selecting to leading positions those (?young people) and young cadres who have a comparatively high consciousness of continuing the revolution under the dictatorship of the proletariat by tempering themselves in the three great revolutionary struggles and who have made significant achievements in the movement to learn form Tachai At the same time, it is necessary to attach importance to bringing the role of veteran cadres into full play "
